ISOLATION GROMMETS

Vibration isolation grommet

⅜ in Inside diameter (9.5 mm)	**⅞ in** Outside diameter (22.2 mm)	**⅜ in** Total height (9.5 mm)

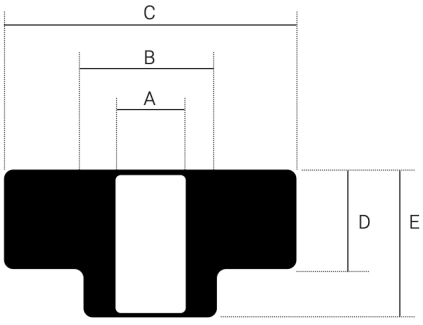

DESCRIPTION

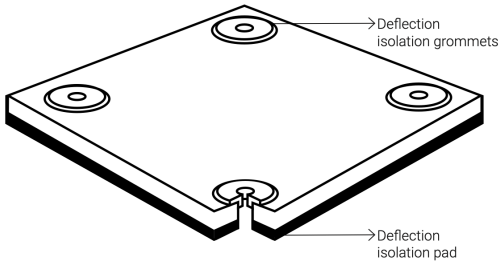

- Isolates the anchor bolt and its washer from the equipment base.
- Prevents metal-to-metal contact at each anchor point.
- Used with Deflection isolation pads.

DIMENSIONS

Ref.	Dimension	(in)	(mm)
A	Inside diameter	⅜	9.5
B	Step diameter	21⁄32	16.7
C	Outside diameter	⅞	22.2
D	Head height	5⁄16	7.9
E	Total height	⅜	9.5

Section view with references A to E.

Typical installation with an isolation pad.

Note: Research and development is an ongoing process. As improvements are made, specifications and dimensions may change without notice. Dimensional tolerances conform to international standards.
